

Teaching Report: John Class 5

Series: The Gospel of John from Yeshua's Judaism Lens

Key concepts: *Tevilah*, *Ruach Elohim*, *Daat*, tabernaculation.

1. The Concept of Tevilah vs. Dogma

The teaching makes a critical distinction between the ritualistic practice of dogma and the spiritual function of immersion according to the Hebrew Scriptures.

Concept	Dogma Vision (Religion)	Vision of Scripture (Hebrew)
Frequency	It is practiced only once (Baptism).	Continuous practice (<i>Tevilah</i>).
Representation	A rite of passage or forgiveness.	Figure of being immersed in <i>Mayim</i> (Aguas/Ruach).
Purpose	Fulfillment of a sacrament.	Formation of the being in the "Prototype World" (<i>Malchut</i>).

2. Ruach Elohim: The Mature Mother

The nature of *Ruach Elohim* is analyzed through gematria and its relationship with the process of spiritual gestation of the believer.

- **Connection to Bereshit 1:2:** The waters represent the divine world of creation.
- **Numerical Analysis:**
 - **Ruach** (רוח): 214
 - **Elohim** (אלהים): 86
 - **Total:** 300 (Equivalent to the letter **Shin** ש, a mother letter that represents feminine and mature energy).
- **Gestation:** Just as a child is formed in the water of the mother's womb, the believer is formed in *Ruach Elohim* to be born as "Son of the Elohim".

3. Spiritual Technologies of the Tevilah

Continuous immersion is not optional if transcendence is sought; It conveys two fundamental elements:

A. Information and Knowledge (Daat)

- **Flow:** *Ruach Elohim* → *Nefesh* (Living Soul) → Mind.
- **Objective:** To break dogma to connect the human mind with the mind of *Ruach Elohim*.

B. Divine Energy

- Coming from the immaterial "Breath".
- It manifests physically in the body and allows you to experience the world of *Malchut* (Kingdom).

4. Transcendence: True Light vs. "Other Mothers" Technologies

The instructor warns about the current era (2025-2026) and the emergence of technologies that mimic spiritual functions in a material way.

Appearance	Transcendence in Yeshua (John 1:14)	Artificial Transcendence (Scientific)
Origin	The Living Torah (<i>Davar</i>) made flesh.	Information from "young/fallen mothers" to scientific minds.
Method	Tatabernaculation and Regeneration of the Spirit.	Regenerative cells to reverse aging.
Purpose	<i>Teshuvah</i> (Return to the Divine Origin).	Physical immortality and commercialization of youth.
Access	Free through faith and the practice of the Truth.	Elite (commercialization of cells for thousands of dollars).

5. The Manifestation of the Ben (Son)

Analysis of **John 1:14** reveals the nature of the tabernaculated Living Torah:

- **Divine Mirror:** The Son (*Ben/Bar*) is the mirror of *Ab* (Father). To see the Son is to see the Father because of this "technology of mirrors" of the *Elohim*.
- **Priesthood (Kehuna) Qualities:**
 1. **Chesed (חסד):** Grace or Mercy.
 2. **Emet (אמת):** Truth.
- **Identity in John 1:51** Yeshua as the *Ben Adam*. It is suggested that *Ab* is a type of "Adam" (Man/Prototype), defying dogmatic interpretations of the Trinity.

Conclusions

1. **Return to the Origin (*Teshuvah*):** True divine intelligence allows us to trace a non-erratic ascent route to return to the original state, away from the confusion of dogma.
2. **Warning about the Current Age:** We are living in an era where science is manifesting the "fountain of youth" through cellular manipulation, which is a material and possibly deviant version of the spiritual regeneration offered by the Living Torah.
3. **The Function of Truth:** Dogma is designed to confuse, while the study of Hebrew and the mysticism of Yeshua seek to connect our mind directly with the mind of *Ruach Elohim* to

operate with divine intelligence on this material plane.
